SOUTHERN CONNECTICUT STATE UNIVERSITY FACULTY SENATE

RESOLUTION REGARDING
THE SCHOOL HEALTH EDUCATION GRADUATE PROGRAM

Whereas Southern Connecticut State University (SCSU) exists for the primary purpose of furthering academic excellence;

Whereas the School Health Education graduate program was directed by the Dean of the School of Health and Human Services, to suspend student admissions to their program;

Whereas suspending admission to a program inevitably places that program at risk for termination and/or discontinuance through attrition;

Whereas such a suspension has been effected without regard for established processes of shared governance as outlined articles 5.18 and 5.20 of the CBA which address explicitly termination and discontinuance.

Therefore, be it resolved that the Faculty Senate demands that the administration reverse its decision and begin accepting students again immediately.

Be it further resolved that if School Health Education or any program is considered for suspension, discontinuance or termination, the Faculty Senate expects a full study as required by the CBA be conducted.
