Meeting began at 9:40am

1. New Business: Coming back to key issues; organizing PRAC to get ready for Fall 2018
   a. Discussion of the potential waiver of departments with external accreditation from program review
      i. The Provost supports using only the outside accreditation
      ii. It would decrease demands on faculty time in climate of reduced credits
      iii. The LEP will still need to be assessed, therefore input will be needed from those who teach in the LEP

   b. Discussion of potential alignment between graduate and undergraduate program review
      i. At the grad level, the level of expertise needed for grad program review is beyond the purview of PRAC.
      ii. Logistics and scheduling. If GC and UCF agree on the outside accreditation issue and agree that there should be a common schedule so that departments can undergo undergrad and grad review during the same semester, the schedule would need to be modified in order to accommodate this.

   c. Revisions to LEP Assessment flow chart V.8 (to be continued)
