UWIC February 21st, 2019

ex officio: C Simoneau

Meeting called at: 9:40 a.m. Quorum reached 9:40 a.m

Old Business:
1. School Curriculum Committees
   SCC Questionairres have been distributed. The forum will be held on Monday, March 4th from 1-1:50 pm in ENG C112.

New Business:
1. Accelerated pathways guidelines

   Discussed guidelines developed by the Adhoc committee on accelerated pathways which incorporate UWIC discussion points. The guidelines will be used to provide directions and adjust the forms of the revised program proposals to help those proposing these programs, as well as provide guidance to those already implementing the programs. Implementation of these guidelines will be pending graduate council approval.

   Clarification points:
   • Electives generally refers to free electives. As these are accelerated programs, if credits are needed to ensure the core degree requirements are met, programs are encouraged to utilize electives before other credits. All credit restrictions will require justification when proposing these programs.
   • The core requirements must remain restricted. Students that successfully complete this concentration will graduate with the same undergraduate and graduate degree as those who were to complete the degrees separately.
   • The 3.0 GPA checks and requirement are a minimum for any of these programs as required by the graduate school, but additional ‘gates’ can be implemented by individual programs.
   • Some type-o’s were fixed in the originally submitted document. ‘High achieving’ was removed from the opening paragraph.

   Motion: Approval of Accelerated Pathways Guidelines as amended.
   (Motion: M Barboza, Second: C Trombly; 11-1-1)
